JANUARY:

Mulch perennials and strawberries if no snow cover and not already mulched.

Check trees for wind damage and frost cracking.

FEBRUARY:

Prune dormant trees, bushes, grapes, berries.

MARCH:

Apply dormant spray to fruit trees, lilacs, flowering trees.

APRIL:

Clean and aerate lawn.

Apply pre-emergent in mid to late April (crabgrass, some broadleaf weeds.)

Slowly uncover roses, perennials, strawberries.

Apply Preen around new trees, bushes, roses, and perennials.

Fertilize evergreens.

Time for spraying for borers, pine diseases.

Start planting perennial flowers, trees, and shrubs.)

Plant cole crops in garden.

MAY:

Apply post-emergent to lawn (Broadleaf weeds.)

Plant annuals and gardens.

Prune junipers, yews, flowering shrubs after flowering.

Start fruit tree spray schedule.

Start fungicide spray on roses.

JUNE:

Pinch back mums and annuals.

Apply fungicides (Scotts Disease Control or Bayleton) for fusarium prevention in lawn (last week of June or the first week of July.)

Water lawns deeply (1") per week.

Fertilize annuals.

Watch for insects in roses, flowers, and vegetables.

Use sprays appropriate for insects.

JULY:

Don't apply Nitrogen to lawn (causes diseases.)

Watch for grub damage.

Water new plantings if rainfall is insufficient.

Apply Oftanol mid July for white grub prevention.

AUGUST:

Apply second grub control; Dylox or White Grub Control (Proxol.)

Water new plantings if rainfall is insufficient.

Late August: divide iris, peonies, fall bulbs.

Insect controls needed in roses, flowers, vegetables.

SEPTEMBER:

Apply Supreme Lawn Food to Lawn.

Fall grass seeding time.

Spray 2, 4-D for dandelions.

Plant peonies and iris.

OCTOBER:

Plant fall bulbs for spring bloom.

Apply winter turf food.

NOVEMBER:

Cut back perennials after frosted, clean flower beds.

Dig frost-tender bulbs.

Remember to water if rainfall is insufficient.

Fertilize evergreens, flowering trees, fruit trees.

Fertilize bulb beds, perennials.

Re-wrap tender tree trunks to protect from rabbit damage and sun scald.

Mulch roses 4-6" deep.

DECEMBER:

Mulch roses and perennials, cut back only far enough to prevent wind damage.

Mulch strawberries.

Water if insufficient moisture.
